Heredity

Volume 61 Number 1 August 1988

Marten Bos and Egbert van der Haring
Gene flow in *Plantago*. II. Gene flow pattern and population structure. A simulation study 1

W. Stewart Grant, Inga I. Becker and Rob W. Leslie
Evolutionary divergence between sympatric species of southern African Hakes, *Merluccius capensis* and *M. paradoxus*. I. Electrophoretic analysis of proteins 13

Inga I. Becker, W. Stewart Grant, Ralph Kirby and Frank T. Robb
Evolutionary divergence between sympatric species of southern African Hakes, *Merluccius capensis* and *M. paradoxus*. II. Restriction enzyme analysis of mitochondrial DNA 21

E. Nevo, A. Beiles and D. Kaplan
Genetic diversity and environmental associations of wild emmer wheat, in Turkey 31

J. H. te Velde, H. Gordens and W. Scharloo
Genetic fixation of phenotypic response of an ultrastructural character in the anal papillae of *Drosophila melanogaster* 47

A. S. Wilby and J. S. Parker
Recurrent patterns of chromosome variation in a species group 55

A. A. Levy, G. Galili and M. Feldman
Polymorphism and genetic control of high molecular weight glutenin subunits in wild tetraploid wheat *Triticum turgidum* var. *dicoccoides* 63

Marie Louise Cariou, Daniel Lachaise, Leonidas Tsacas, John Sourdis, Costas Krimbas and Michael Ashburner
New African species in the *Drosophila obscura* species group: genetic variation, differentiation and evolution 73

J. J. Garrido, G. Dorado and M. Marbancho
Participation of *Drosophila melanogaster* alcohol dehydrogenase (ADH) in the detoxification of 1-pentene-3-ol and 1-pentene-3-one 85

J. P. A. Gardner and D. O. F. Skibinski
Historical and size-dependent genetic variation in hybrid mussel populations 93

Mariitta Sirén and Petter Portin
Effect of transvection on the expression of the Notch locus in *Drosophila melanogaster* 107

Barrie Burnet, Lynn Burnet, Kevin Connolly and Nigel Williamson
A genetic analysis of locomotor activity in *Drosophila melanogaster* 111

D. Anxolabéhère, L. Charles-Palabost, A. Fleuriet and G. Periquet
Temporal surveys of French populations of *Drosophila melanogaster*: *P-M* system, enzymatic polymorphism and infection by the sigma virus 121

Michael S. Johnson
Founder effects and geographic variation in the land snail *Theba pisana* 133

M. J. Puertas, J. M. Vega, F. Romera and M. Diez
Frequency-dependent fertilisation involving rye B chromosomes 143

J. Gonsálvez, J. L. Bella and G. M. Hewitt
Chromosomal differentiation in *Podisma pedestris*: a third race 149

Volume 61 Number 2 October 1988

J. M. Warren
Outcrossing frequencies within- and between-capitulum morphs in groundsel *Senecio vulgaris* L. 161

Araceli Fominaya and Juan Orellana
Does differential C-heterochromatin content affect chromosome pairing in octoploid triticale? 167

Terence J. Crawford and David A. Jones
Variation in the colour of the keel petals in *Lotus corniculatus* L. 4. Morph distribution in the British Isles 175

L. I. Mazon, A. Vicario, M. A. M. de Pancorbo, A. I. Aguirre, A. Estomba and C. M. Lostao
North/South differentiation in the distribution of *Cepaea nemoralis* in Spain 189

Kevin O'Dell and Barrie Burnet
The effects on locomotor activity and reactivity of the *hypoactive* and *inactive* mutations of *Drosophila melanogaster* 199

W. van Delden and A. Kamping
Selection against *Adh* null alleles in *Drosophila melanogaster* 209

G. H. Jones and S. M. Albini
Recombination nodules, chiasmata and crossing-over in the nucleolus organizing short arm of *Allium fistulosum* 217

J. M. Wójcik and J. B. Searle
The chromosome complement of *Sorex granarius* - the ancestral karyotype of the common shrew (*Sorex araneus*)? 225

Michael Bulmer
Sex ratio evolution in lemmings 231

S. G. Compton, S. G. Beesley and David A. Jones
Variation in the colour of the keel petals in *Lotus corniculatus* L. 5. Successional differences in the distribution of dark-keeled plants 235

Edward J. Klekowski, Jr
Progressive cross- and self-sterility associated with aging in fern clones and perhaps other plants 247

M. Santos, A. Ruiz, A. Barbadilla, J. E. Quezada-Diaz, E. Hasson and A. Fontdevila
The evolutionary history of *Drosophila buzzatii.* XIV. Larger flies mate more often in nature 255

P. Capy, J. R. David and A. Robertson
Thoracic trident pigmentation in natural populations of *Drosophila simulans*: a comparison with *D. melanogaster* 263

Book Reviews 269

Genetical Society Abstracts (13 to 15 April 1988 Meeting) 273

Volume 61 Number 3 December 1988

A. D. Marchant, M. L. Arnold and P. Wilkinson
Gene flow across a chromosomal tension zone. I. Relicts of ancient hybridization 321

D. P. Stevens and J. M. M. Van Damme
The evolution and maintenance of gynodioecy in sexually and vegetatively reproducing plants 329

Joachim Rodrigues de Miranda and Paul Eggleston
Genetic analysis of larval competition in *Drosophila melanogaster* 339

Mortaza Hemmat and Paul Eggleston
Competitive interactions in *Drosophila melanogaster*: genetic variation for interference through media conditioning 347

D. Lewis, S. C. Verma and M. I. Zuberi
Gametophytic-sporophytic incompatibility in Cruciferae - *Raphanus sativus* 355

M. I. Zuberi and D. Lewis
Gametophytic-sporophytic incompatibility in the Cruciferae - *Brassica campestris* 367

Walter J. Diehl
Genetics of carbohydrate metabolism and growth in *Eisenia foetida* (Oligochaeta: Lumbricidae) 379

A. R. Beaumont, C. M. Beveridge, E. A. Barnet, M. D. Budd and M. Smyth-Chamosa
Genetic studies of laboratory reared *Mytilus edulis*. I. Genotype specific selection in relation to salinity 389

D. R. Govindaraju
A note on the relationship between outcrossing rate and gene flow in plants 401

Ettore Randi and Marco Apollonio
Low biochemical variability in European fallow deer (*Dama dama* L.): natural bottlenecks and the effects of domestication 405

J. P. Stevens and Q. O. N. Kay
The number of loci controlling the sporophytic self-incompatibility system in *Sinapis arvensis* L. 411

F. Baba-Aissa, M. Solignac, N. Dennebouy and J. R. David
Mitochondrial DNA variability in *Drosophila simulans*: quasi absence of polymorphism within each of the three cytoplasmic races 419

F. K. Kasule and L. M. Cook
Phenotypic variability and heterozygosity at an esterase locus in the mosquito *Aedes aegypti* 427

M. A. Beaumont
Stabilizing selection and metabolism 433

William C. Black IV, William A. Hawley, Karamjit S. Rai and George B. Craig Jr.
Breeding structure of a colonizing species: *Aedes albopictus* (Skuse) in peninsular Malaysia and Borneo 439

David J. Innes and Luise A. Hermanutz
The mating system and genetic structure in a disjunct population of the seaside goldenrod *Solidago sempervirens* L. (Asteraceae) 447

D. L. Hayman, H. D. M. Moore and E. P. Evans
Further evidence of novel sex differences in chiasma distribution in marsupials 455

J. Martin and C. U. Hesemann
Cytogenetic investigations in wheat, rye and triticale. I. Evaluation of improved Giemsa C- and fluorochrome banding techniques in rye chromosomes 459

D. Charlesworth
A method for estimating outcrossing rates in natural populations of plants 469

Nasser Bahrman, Michel Zivy and Hervé Thiellement
Genetic relationships in the Sitopsis section of *Triticum* and the origin of the B genome of polyploid wheats 473

INDEX 481
